Our government is very busily engaged is eparing and passing Bills to insure the suc-seful working of Responsible Government. This is very right and very proper. In fact, it is the duty of the present out-going administration to use every endeavor to remove every obstacle in the way of the incoming every obstacle in the way of the incoming government. There is, however, one subject that demands, in our judgment, the consideration of the present Executive and the present Council, and this is nothing more nor less than the civil list, or rather the salaries of the heads of departments under Responsible Government. The Constitution Act, if we recollect right, only names three officials as heads of departments—the Colonial Seasetary, Surveyor General, and Attorney General. Room is left, however, in the future Executive Council for two others, whether with or without calaries. New, it may be that the last two may be Executive Councillors, without office—and consequently without malary. last two may be Executive Councillors, without office—and consequently without salary.
The other three must have salaries. If their
enlaries be not fixed by the present Council,
it will have to be considered by the new
Government. It is true that the Ordinance of
1863, provides enlaries for those officials. But
in the opinion of those competent to form a
sound judgment on this matter, it is decided
that the matter be reviewed; and a decision
arrived at, as to the salaries that ought to be
paid to the Colonial Secretary, Surveyor Genpaid to the Colonial Secretary, Surveyor General, and Attorney General under Responsible Government, after Confederation. If this matter be not attended to, in the present this matter be not attended to, in the present session, it will come up in the future, and produce a result unfavorable to the popularity of the first administration. Under the present regime, the chief officials do their work, draw their salaries, and are under no obligation whatever to any constituency. Neither are they under any necessity to make exertion, either socially or otherwise, to create a following to carry on the Government. All this will cease under the in-coming regime; and hence, the salaries of those ing regime; and hence, the salaries of those who will have to lead the Government of the Colony, under Responsible Government, ought to be considered at present, in order to avoid any unnecessary friction bereaft

Dr. Powell leaves on the steamer to-day, for Canada. He came here eight years ago, COM MISSION ACEN -a stranger. He leaves to-day, with a host of friends. As a practitioner, he holds a first-class position. Medically speaking, there is nothing second-rate about him. As a doctor, he is a success. Stuart Mill, the hardest and most exacting thinker of modern times, on professions, would pronounce him so. Socially, Dr. Powell fills the full measure of a man; and but few men in Retain Columbia are able to measure in British Columbia are able to measure themselves with him. It is, however, as a public man that he deserves to be considered. Audctio

Amid good and evil report, he never deserted the Confederate standard. He always kept the Confederate flag flying; and, we must say, assisted in making that great movement a success. Some who to-day claim consideration for doing thus, and so advancing Confederation, are but journeymen politicians. Had it not been for Dr. Powell and others, the great scheme of Confederation would never have been a success. His devotion to that cause, demands its reward. Not that we have the remotest idea that he asks either office or position. idea that he asks either office or position Still, we hold that a Government is bound politically, in common justice, to give its first rewards to its truest and oldest friends, and not to time servers, who step in to enbe a success. But no matter, whether considered professionally, socially, or politically, Dr. Powell is one of our best citizens; and in returning to his native land, he carries with him the good wishes of every one, who on his return will welcome him back as a true British Columbian.

Dr. Powell.

NEW STEAM LINE. - We have it on the best authority, that Messrs. Rosenfield & Birmingham are prepared to put on this route the first class steamer which they have recently purchased, and make a trip every twenty days, if they receive sufficient encouragement from the Government. The Prince Alfred is a Clyde built steamer of 850 tons, and can be worked to 600 horse-power. She is a full power screw-ship, with five water-tight compartments—large and commodious, with a fine ladies' saloon and superior passenger accommodation. They intend to make it pay, by carrying down coal, freight, and passengers at reduced rates to San Francisco. Our informant says—We hope the Government will meet any offer of a really good and commodious steamer, in a liberal spirit, and if need be, the Legislative Council ought to support a small addition to the present subsidy, as it will be almost impossible for the Bauadian Government to complete any as-rangements for a new line this year. first class steamer which they have recently

Only yesterday, we heard they were expected to arrive in the course of a few weeks. We are informed, however, that additional advices received by the Pacific state that the Bishop has accepted a rectory in the west of Eagland, although he had every preparation made—even to engaging servants and purchasing his carriage—prior to his departure for this diocese. It has been generally understood that Mrs. Hills was unfavorably inclined towards returning to this Colony.

Shareholders of the Queen Charlotte Coal Company, Limited, DEING IN POSSESSION OF THE PACT that Seventeen Members of the Company have subscribed their names to a document applying to the Court for a full right and title to the whole of our mining property, together with Rolling Stock, Improvements &c., amounting altogether with Rolling Stock, Improvements &c., amounting altogether to over \$100,000 by paying off the present mortgage on the mina, which is about \$5,000 which they propose to effect by such paying \$120 cash, the balance to be raised by Mortgage on the mine and thus obtain by private sale for a mere trifle the whole, of our property.

thus obtain by private sale for a mere triffe the whole of our property.

We shall then be called upon to pay our present indebtedness with cost of Liquidation after having been privately stripped of our assets.

It appears to me to be a fraudulent attempt on their part to deprive the Shareholders of the property. If the Mine has to be sold, by all means, let it be by Pablic Auction after having given due notice. The Company then would have a chance to obtain a price such as at least would, be likely to pay off its prevent indebtedness.

No doubt exists in the minds of the Seventeen Shareholders referred to, as to the value of the mine, their object in the present hurrying and intriguing manner of purchase being to hold the mine for a future and more favorable opportunity of sale.

Sour correspondent not being able to see either the legality or equity of the case feels it his duty to call the attention of the Shareholders in general to counternets such processings.

Mr. Nathan had great pleasure in seconding the motion of the hoa, member would in the motion of the hoa, member for Nana and agreed with him that the clause was un-English. If he saw any necessity for such a clause, he would willingly support it, and to allow the clause to pass would be a great injustice to liquor dealers, who paid a large amount to the Revenue of the Colony, To compel them to close their places of business on election day, as it was the only day in the year that they had a chance to make

In the House of Commons the bill for th rganization of the army was taken up, and there was a keen encounter over the clause abolishing the purchase of commissions. The supporters of the system predicted loss of military character and prestige should it be

New York, March 9- A Tribone Washington special says, there is great excitement in po-litical circles to-night, in regard to a Com-mittee that has been appointed by the Repub-lican caucus of the Senate, to propose a re-vision of the Senate Committees. The Committee was in session on Tuesday evening, and all yesterday, but voted to keep secret the result of their deliberations.

Rumors are afloat, in regard to important changes, but all agree that a change is to be made in the Foreign relations Committee; also, that Summer is to be removed from the head of the Committee, and from the Com-mittee itself, and Morton or Cameron will probably be promoted to the chairmanship. Freling Huysen is said also to be placed on

generally credited that the majority will report in favor of Summer retaining his present position. The caucus is called for 10 o'clock to-day, and the report of the committee will no doubt give rise to some very warm and of Constance Cove. bitter debates. The friends of Sumner will fight against the change with the greatest vigor; and if they fail in the caucus, they will combine their opposition in the open Senate. It is said that one of the oldest Senators called on the President and advised him to so increase the number of the members of the committee, so as to place Sumner in the minority; but the President would not consent to anything short of Sumuer's removal. The principal argument in favor of the charge is that Sumner is not on

21st inst.

Riotous demonstrations have been made this morning on Clay street wharf, and other spilors points along the city front, by a few sailors and a large number of sailors' boarding house keepers and runners against sailors attempting to ship at \$25 a month without any advance, that being the new tariff adopted by ship owners of lumber vessels, in place of \$30 per month, and \$15 in advance, formerly allowed. Several sailors who were shipped on board the brig North West were attacked and roughly handled by the rioters. One man was badly injured. Three or four of the rioters were arrested by the police, who have dispersed the crowd. All is now quiet on the city front. The sailors are generally satisfied to work at the reduced wages, but the boarding house keepers who get the full tenefit of the \$15 advance under the old system, will not permit them to go to work.
